

### PRESS RELEASE

20.02.2023

#### BMC IS READY FOR IDEX 2023

20-24 February, IDEX 2023, United Arab Emirates, Abu Dhabi

As one of the World-recognized military land vehicle manufacturers, BMC, will participate at International Defence Exhibition and Conference IDEX 2023 with ALTUĞ 8x8 APC, AMAZON 4x4 MPAV, and TULGA 4x4 SUV vehicles in the capital city of United Arab Emirates, Abu Dhabi between February 20-24th.

As the export champion in military land vehicles in 2022, BMC continues its successful activities in search of new markets in the international arena with its military land vehicles developed with the latest technology in the IDEX exhibition, which is considered one of the most significant defense exhibitions of the world.

#### THE VEHICLE WHICH WILL BE EXHIBITED AT THE FAIR

##### **ALTUĞ 8x8 – Armored Personnel Carrier**

Having a single platform for different user needs and missions with its modular ceiling concept, The ALTUĞ 8x8 APC stands out in its class with its high-level and expandable modular ballistic mine, shooting location detection system, IED protection and CBRN protection system.

##### **AMAZON 4x4 – Multi-Purpose Armored Vehicle**

The new version of AMAZON 4x4 MPAV has a high level of protection against mines and ballistic explosive devices and has a capacity for a crew of 5. Besides all these capabilities, AMAZON 4x4 MPAV has substantial maneuvering capabilities. The AMAZON 4x4 MPAV stands out with its equipments such as automatic fire extinguisher system, central tire-inflation system, run-flat tires, rear-view camera, black-out lights, and camouflage light.

##### **TULGA 4x4 – Armored Vehicle**

The TULGA 4x4 SUV was designed, produced, and armored with a high-level security system to meet the security needs of internal security. It has up to 5-personnel, and high performance in all kinds of terrain conditions with its superior maneuverability, large interior, and load-carrying capacity.
