

PRESS RELEASE

21.12.2022

BMC IS THE EXPORT LEADER

BMC, one of the most globally reknown military vehicle manufacturers of Türkiye, has become the export leader among Defense Industry Land Vehicle Manufacturers with its sales in 2022, according to the data announced by SSI (Defense and Aviation Industry Exporters' Association).

Turkish Defense Industry Land Vehicle Manufacturers exported a total of 428 million USD in 2022 (January-November 2022). Realizing approximately 45% of the total exports on its own, BMC ranked first among Defense Industry Land Vehicle Manufacturers and fifth among all Defense Industry Manufacturers.

BMC, which includes military land vehicles in many different classes in its product family such as main battle tank, howitzer system, armored vehicles, military trucks, logistics support vehicles, etc., continues its efforts to meet the needs of friendly and allied countries, especially the Turkish Armed Forces.

BMC, which incorporates all processes such as design, production, development and integrated logistics support with domestic and national resources, continues to work, produce and represent our country in the international arena today as it was yesterday.
