

## BMC will stage 2 World Premieres at the Eurosatory 2016!

**BMC, as one of the biggest commercial and military vehicle producers founded in İzmir Turkey with a background of more than 50 years, will be at Eurosatory Defence & Security International Exhibition 2016 that will take place in Paris on the 13th-17th of June. Creating solutions in every realm of commercial and military vehicle production within its integrated 250.000 square meters manufacturing facility, BMC will stage 2 World Premieres in Paris - multi-purpose armoured vehicle “Vuran 4x4” and two different types of facelift “Kirpi” models.**

Having contributed 10 billion dollars to Turkish economy with its vehicle production exceeding 300.000 pieces since the beginning of its first day, BMC continues to work for the achievement of a renewed goal to become a world-wide known brand. In this regard, BMC is attending with 3 new vehicles to Eurosatory Defence & Security International Exhibition 2016 that will take place in Paris on the following dates: 13th-17th of June.

BMC sets the stage for the World Premiere of **Vuran 4x4 Multi Purpose Armoured Vehicle** at Eurosatory 2016. Thanks to its monocoque type armoured cabin and glasses, shock absorbing seats, V-shaped underbelly, gun ports and emergency exit hatch, Vuran 4X4 is part of a family including the multi purpose armoured vehicles. It presents for its passengers mine and ballistic protection. Front rear view camera, automatic fire extinguishing system, remote controlled weapon station, run-flat tyre inserts and A/C with heating and cooling functions are the outstanding features of Vuran.

Kirpi, prominent member of BMC’s Multi Purpose Armoured Vehicle Family, will be also presented at the Eurosatory 2016 by BMC with its two distinct facelift models. **“Kirpi 4x4 Ambulance”** and **“Kirpi 6x6”** have the same cabin features as Vuran. Monocoque type armoured cabin and glasses, shock absorbing seats, V-shaped underbelly, gun ports and emergency exit hatch are leading common features of BMC’s Multi Purpose Armoured Vehicle Family.

The discriminative qualities of Kirpi vehicles are as follows: Armoured, manual 360° rotatable turret together with electrical and air connectors for towing and being towed. Blackout and camouflage lighting, NATO towing hook, transportability on railway, optional rearview camera and automatic fire extinguishing system are the other distinctive features of Kirpi.

Amazon, another vehicle that will be presented by BMC at Eurosatory '16, guarantees security of its passengers against mine, ballistic and hand-made explosive threats. The distinguishing features of the vehicle is as follows: Automatic fire extinguishing system, central tyre inflation system, run flat tyre inserts, rear view camera, blackout and camouflage lighting.

**BMC, presenting an ability to develop dynamic and innovative viewpoint over research-development and design activities to produce both passenger transportation and military vehicles, will be launching at Eurosatory 2016 its new multi-purpose armoured vehicle "Vuran 4x4" and two different types of "Kirpi" with their renewed front faces. Eurosatory Defence & Security International Exhibition is a biyearly happening exhibition gathering over 1,500 exhibitors from 58 different countries to discuss the all aspects of Land and Airland Defence industry.**
